

I Still Believe (A)

I've been in a cave for forty days
With only a spark to light my way
I want to give out, I want to give in
This is my crime, this is my sin

But I still believe, I still believe
Thru the pain and thru the grief
Thru the lies and thru the storm
Thru the cries and thru the wars
Oh, I still believe

With the light at my back, out at sea
Hoping these waves don't cover me
I'm turned and tossed upon the waves
When the darkness comes I feel the grave

But I still believe, I still believe
Thru the cold and thru the heat
Thru the pain and thru the tears
Thru the crowd and thru the cheers
Oh, I still believe (7x)
